TRUSTEE REPORT

To the Unitholders,

Directors of Principal Trustee Company Private Limited have the pleasure in presenting the Twenty First Annual Report along with the audited financial statements of the Schemes of Principal Mutual Fund for the Financial Year 2014-2015.

1. Scheme Performance, Future Outlook and Operations of the Scheme :

Performance as on March 31, 2015:

Principal Large Cap Fund (An Open Ended Equity Scheme)

Period	Date	Regular Plan ^a		Direct Plan ^{a,b}	
		Returns (%)	S&P BSE 100 Index (%)	Returns (%)	S&P BSE 100 Index (%)
Last 1 Year	31-Mar-14	35.02	28.32	35.82	28.32
Last 3 Years	30-Mar-12	20.97	17.41	N.A.	N.A.
Last 5 Years	31-Mar-10	12.52	9.79	N.A.	N.A.
Since Inception	11-Nov-05	17.90	13.63	20.65	16.83

^a Direct Plan - Since Inception - January 2, 2013. ^b Growth Option

Past performance may or may not be sustained in the future

Note: Returns less than one year are calculated on absolute basis and returns for more than one year are calculated on Compounded Annualised basis.

During the Financial Year 2014-15, the Scheme outperformed its benchmark due to the outperformance of stocks bought in Automobiles, Energy, Cement, Construction and IT sectors with the returns from these stocks being significantly higher compared to the benchmark.

The net assets of the Scheme amounted to ₹ 314.38 Crores as at March 31, 2015 as compared to ₹ 300.30 Crores as at March 31, 2014.

Outlook and Operations of the Scheme:

a. Equity Market: While the economy through FY15 generally remained weak, there are some signs of a pick up. The sales of Commercial Vehicles, esp. Heavy CVs has shown an uptick in the past few months. Toll road operators say that traffic flow has picked up meaningfully on some stretches, not only in areas where mining is restarting, but even otherwise. There have been initial moves towards transmission of lower interest rates by the banks. However, it is key that the strength of corporate balance sheets improve as that is a necessary condition for a strong recovery in the capital expenditure cycle. We have seen some signs of that with asset sales in the infrastructure space.

Globally, the picture is mixed. The key event to watch out for would be the Fed raising rates and the markets' reaction to that as that can impact flows into EMs. Incrementally, stock markets in developed markets are doing better than those in EMs. However, India in some ways is better placed, as while the macros have improved, the markets now expect the micro (i.e. the company level) picture also to improve. This is not true of most EMs, which should benefit India as far as relative fund flows are concerned.

b. Debt Market: The key drivers for debt market in FY 2015-16 would be the RBI monetary policy stance, CPI inflation trajectory, Banking system liquidity conditions and demand supply dynamics for Government Securities (G-Sec). RBI is expected to keep CPI inflation as the nominal anchor of monetary policy. If the trajectory of CPI inflation is in line with RBI projections (4% by Aug 15, and 5.8% by Mar 16), then we may see further rate cuts this year.

Global crude oil prices would continue to remain an important indicator in terms of fuel inflation, oil import growth and subsidy bill of government. Any fall in prices to below US\$50 per barrel on account of global growth concerns would be positive for debt market. Banking system liquidity is expected to remain in deficit mode in FY16 as well. Most of the deficit, though, would be financed through Term repo like FY15.

The supply of G-Sec in the first half of FY 2015-16 is 60% of the total dated G-sec borrowing programme of ₹ 6.00 lakh crores (in turn higher than ₹ 5.92 Lac Cr of FY 2014-15). The government plans to conduct buyback (swap) of short term G-sec and issue fresh long dated G-sec of an equivalent amount this year as well, which may put pressure on long term G-Sec yields. The broad range for 10 year benchmark for financial year 2015-16 is likely to be 7.00%-8.00%.

Operations: Principal Mutual Fund (PMF) as at March 31, 2015 offers twenty nine Schemes.

These include nine Equity Schemes (including two Equity Linked Savings Schemes), one Balanced Scheme, one Hybrid Scheme, one Fund of Fund Scheme (Overseas), nine Debt Schemes/ Plans including one Liquid Scheme, and eight Fixed Maturity Plans. The total assets under management across all these Schemes as on March 31, 2015 was ₹ 5027.22 Crore.

The AMC operates out of 11 branches, including Mumbai. Increased use of technology coupled with optimum allocation and utilization of resources has helped us to enhance operational efficiency at PMF.
