TRUSTEE REPORT

To the Unitholders,

Directors of Principal Trustee Company Private Limited have the pleasure in presenting the Twenty Second Annual Report along with the audited financial statements of the Schemes of Principal Mutual Fund for the Financial Year 2015-2016.

1. Scheme Performance, Future Outlook and Operations of the Scheme :

Performance as on March 31, 2016:

Principal Cash Management Fund (An Open Ended Liquid Scheme)

Period	Date	Regular Plan [^]		Direct Plan ^{^#}	
		Returns (%)	Crisil Liquid Fund Index (%)	Returns (%)	Crisil Liquid Fund Index (%)
Last 1 Year	31-Mar-15	8.24	8.04	8.32	8.04
Last 3 Years	31-Mar-13	8.84	8.85	8.93	8.85
Last 5 Years	31-Mar-11	9.05	8.63		
Since Inception	30-Aug-04	7.66	7.16	8.94	8.78

[^] Direct Plan - Since Inception - January 1, 2013. ^{^#} Growth Option

Past performance may or may not be sustained in the future

Note: Returns less than one year are calculated on absolute basis and returns for more than one year are calculated on Compounded Annualised basis.

During the Financial Year 2015-16, the Regular and Direct Plans under the Scheme outperformed its benchmark. This was mainly due to judicious mix of cash management through prudent Asset Liability management, mix of higher yielding commercial papers and effective management of mark to market portion of the fund.

The net assets of the Scheme accounted to ₹ 1,223.23 Crs as at March 31, 2016 as compared to ₹ 1,551.99 Crs as at March 31, 2015.

Outlook and Operations of the Scheme:

a. **Equity Market:** While the economy through FY16 generally remained weak, there are some signs of a pick up. The sales of Commercial Vehicles, esp. Heavy CVs has shown an uptick in the past few months. Cement demand has shown signs of improvement and consumer durables sales have generally been good. While stressed assets of banks is an issue, but most corporates seems to be making efforts to sell assets and improve the Balance Sheet. The rate cycle seems to have tail winds as inflation is likely to be steady for most of the year. Initial monsoon forecasts from the weather forecaster are for a normal monsoon which should help in rural demand.

After weak earnings for the past 2 years, earning should revive in FY 17. However, valuations are fair in line with long term averages. Global events like stability in commodity prices, geopolitical developments and the macroeconomic situation in advanced economies will drive flows in Emerging Markets (EMs). India is placed in a relatively better position compared to most EMs in attracting these flows.

b. **Debt Market:** The key drivers for debt market in FY 2016-17 would be RBI's open market operations, liquidity conditions in the banking system and demand supply dynamics for Government Securities (G-Secs). Given RBI's stated stance to bring banking system liquidity deficit to a "neutral" level we expect higher OMO purchases of dated gilts and lower deficit levels as compared to FY 16.

Issuance of UDAY bonds and States' SDL could put intermittent upward pressure on bond yields as the total supply remains high. Foreign inflows to debt market are expected to pick up in the backdrop of stable global conditions and benign interest rates across US, Eurozone and Japan. Inflation is expected to average close to 5% for the financial year in line with RBI's targeted trajectory path for CPI inflation and thus we expect RBI to remain in an accommodative policy stance during the year, though further rate cuts may be limited.

Global crude oil prices would continue to remain an important indicator in terms of fuel inflation, oil import growth and subsidy bill of government. Any sharp rise in oil prices can be negative for the markets in terms of higher subsidy bill which can impact fiscal deficit negatively and higher

inflation. We expect the government to broadly meet its fiscal deficit target of 3.5% for FY 17.

The broad range for 10 year benchmark for financial year 2015-16 is likely to be 7.00%-7.70%. Given the cuts in key rates by RBI, change to MCLR regime by banks and alignment of small savings instruments rates to market yields by the government, we expect greater transmission of policy rates to short end of the curve and thus short to medium tenor corporate bonds and CP/CD yields should remain benign broadly with downward bias.

Operations: Principal Mutual Fund (PMF) as at March 31, 2016 offers twenty Eight Schemes. These include nine Equity Schemes (including two Equity Linked Savings Schemes), one Balanced Scheme, one Hybrid Scheme, one Fund of Fund Scheme (Overseas), one Fund of Fund (Domestic), eight Debt Schemes/Plans including one Liquid Scheme, and six Fixed Maturity Plans. The total assets under management across all these Schemes as on March 31, 2016 was ₹ 4073.84 Crore. The AMC operates out of 11 branches, including Mumbai.
