Fixed Income Market Update: July 2017

Key Market Highlights:

- During the month yields continued to fall across various fixed income asset classes. Ample banking system liquidity, expectations of rate cut and benign inflation were the key reasons.
- During the month G-Sec yields came down further. The benchmark closed the month at 6.46%, 5 bps lower from previous month. The ten year AAA Corporate bond benchmark closed at 7.54%, 2 bps lower than previous month. The five year AAA corporate bond benchmark closed at 7.33%, 8 bps lower as compared to previous month. Currently SDL spreads are trading around 70-80 bps to the new gilt benchmark.
- 1 year CD rates closed at 6.56%, 6 bps lower than previous month. 1 year T bill yield too fell by 11 bps to close at 6.24%. 3 month CD rates closed at 6.17% and 3 month T bill yields fell to 6.12%, 16 bps lower than previous month.
- Brent Crude oil prices rose to USD 52 per barrel, compared to USD 48.23 per barrel in the previous month.
- INR appreciated as dollar index weakened and FII inflows continued. It closed the month at 64.18 as compared to 64.58 the previous month. For the month of July, FIIs were net buyers in the debt market to the tune of Rs 20,312 cr.
- The ten year benchmark US treasury yield ended at similar levels as previous month at 2.29%.
- June WPI data release came at 0.9% as compared to 2.17% in previous month. CPI for June came at 1.54% compared to 2.18% in previous month.
- May Industrial production (IIP) growth came at 1.7% compared to 2.8% for previous month.
- Banking system liquidity remained well in surplus mode. RBI conducted Rs. 20,000 cr worth of OMOs of dated g-secs. Banks lent on an average Rs 3 Lakh Cr at various RBI liquidity facilities put together.

- In a significant move, State Bank of India cut savings bank deposit rates on Rs 1 cr and below deposits to 3.5% from 4%. Main reasons seem to be to protect interest margins in an environment of low credit growth.
- In its Third Bi Monthly Monetary Policy Review for FY 18 held on 2nd August, RBI cut key rates (repo and reverse repo) by 25 bps each while maintaining neutral stance. The MPC voted 4-2 in favour of this outcome. While they have acknowledged that some of the upside risks to CPI inflations have not materialized, they continue to remain cautious with eye still on the medium term target of 4% for CPI inflation. Apart from softness in food and fuel prices, RBI also noted interestingly that the Inflation in transport and communication services was depressed by the pricing war in the telecommunication space. Pricing power for industry also remains subdued as per RBI survey. Among the market development initiatives announced by RBI, it is noteworthy to mention the separate limit in IRFs (Interest Rate Futures) to the extent of Rs 5000 cr for FPIs. Also RBI plans to review the MCLR and Base Rate mechanism to address the issue of inadequate monetary transmission. Steps are being taken to close out the gap of information asymmetry between borrowers and lenders by having a comprehensive PCR (Public Credit Registry) for which RBI plans to set up a task force.

Outlook:

- To some extent the rate cut was factored in money market, bond and gilt yields. We expect prices to be supported in the backdrop of ample banking system liquidity and overall benign macro environment. In the near term the ten year benchmark may trade in a range of 6.30 - 6.50%
- We expect banking system liquidity to remain in surplus zone and the quantum of surplus is expected to be similar to last month and be in a range of Rs 2.5 Lakh to 3 Lakh Cr. There could be further MSS or OMO issuances to suck our durable liquidity.
- Short term Money market rates are expected to remain stable on back of low CD issuance and surplus banking system liquidity. Corporate bond spreads for good quality issuers may contract on back of rate cut and lower supply as compared to gilts.

Review of Equity Markets for the month of July

The equity markets moved up in July in line with world equity markets. The MSCI EM index (USD) was up nearly 5.5% during the month while the MSCI world index (USD), which tracks developed markets was up 2.3%. MSCI India (USD) at 7.3%, outperformed the EM index. In calendar 2017, the EM index is now up 24% vs a gain of 12% for the developed markets index. Offshore fund flows into emerging markets were about USD 5.1 Billion in July, with year to date flows into EM equity now stand at about USD 43 Billion. FII investment into Indian equity was about USD 390 million during the month with the year to date figure now is about USD 8.9 Bio.

The US Fed kept the fed funds rate unchanged as expected but moved a step closer to balance sheet unwind starting end Q3 or beginning Q4 this year. It acknowledged inflation running below its target but expected it to recover to its 2% in the medium term, necessitating further gradual hikes.

The month began with change in regulations regarding P-Notes limiting their usage to mainly hedging. This led to short covering of open positions which also gave an impetus to the rally. Against the trend for the past year, large cap indices have outperformed the mid cap index in the last 3 months as shown below. In terms of sector performance, metals and financials stood out. The metal stocks have done well on the back of higher metal prices. The Bloomberg all metals index was up 3% during the month. This has been led both by a weaker Dollar index (the DXY was down 3% in July) and decent performance of the Chinese economy and continued focus on shutting down inefficient metal producing capacity there. The second quarter Chinese GDP grew at 6.9% while in terms of shutting capacity, 85% of the targeted capacity reduction in steel for 2017 has apparently been met. Among metals, copper was up 7% during the month, while iron ore was up 15%. Crude prices (Brent) were up 10% during the month.

PERFORMANCE AS ON JULY 31, 2017*

	Index	1 Month (%)	3 Months (%)	6 Months (%)	1 Year (%)

* Performance for less than one year are absolute returns.

Source - MFI Explorer

The financials sector did well led by strong earnings numbers by a few private sector banks, while in a couple of cases, slippages remained elevated, and were from outside the watch list of accounts. NBFCs also recorded robust growth.

The performance of the FMCG sector was pulled down by the government additionally levying a cess on cigarettes which impacted tobacco stocks.

In macroeconomic news, the GST was implemented from July 1. This should have far reaching impact on tax collections and gradual shift from the informal sector to the organized sector. The initial roll out has been relatively smooth. However, the manufacturing PMI for July fell to 47.9 (50.9 in June), likely related to transitional uncertainties as firms try to assess the implication of the new tax structure. Business optimism on future outlook however improved to 62.1 (an 11 month high). This suggests that businessmen expect the GST issues to be short lived. The confidence also probably stems from good progress of the monsoon and hopes of decent performance of the rural economy, expectations of a rate cut (the RBI cut the rate by 25 bps in early August) and continued focus of the government on infrastructure. As of August 1, 84% of the country's area has received normal to above normal rains and area sown under kharif is higher by 3% joy.

The merchandise exports in June grew 4.4% to USD 23.6 Billion with imports growing 19% to USD 36.5 Billion. A stronger Rupee probably impacted exports. The current account deficit for FY 18 is expected to be worse than the low of 0.7% of the GDP in FY 17 as imports of gold and non-oil imports pick up as the economy recovers. In the results declared so far for Q1, FY 2018, the auto companies, select private sector banks and cement companies and metal companies have shown good numbers. The results for this quarter will not be representative however, as many companies would have compensated the distribution channel for input tax related expenses for the roll out of the GST.

SECTOR ALLOCATION (TOP 10) (As on July 31, 2017)

Principal SMART Equity Fund (An open-ended equity scheme)

FUND FEATURES (As on July 31, 2017)

MAAUM: ₹ 170.23 crore • AUM: ₹ 174.99 crore

NAV Per Unit: (As on July 31, 2017)

	Direct Plan	Regular Plan
Growth Option :	₹ 20.19	₹ 19.36
Dividend Option (Monthly) :	₹ 17.32	₹ 15.91

INVESTMENT OBJECTIVE: The primary objective of the scheme is to seek to generate long term capital appreciation with relatively lower volatility through systematic allocation of funds into equity; and in debt /money market instruments for defensive purposes. The Scheme will decide on allocation of funds into equity assets based on equity market Price Earning Ratio (PE Ratio) levels. When the markets become expensive in terms of 'Price to Earnings' Ratio'; the Scheme will reduce its allocation to equities and move assets into debt and/or money market instruments and vice versa.

Different plans shall have a different expense structure. Returns shown above are for Regular Plan - Growth option. Past performance may or may not be sustained in the future.

The returns shown above are calculated using XIRR approach (CAGR Returns) assuming investment of ₹ 10,000/- on the 1st business day of every month. XIRR helps in calculating return on investments given an initial and final value and a series of cash inflows and outflows with the correct allowance for the time impact of the transactions. Load is not taken into consideration for computation of performance.

For performance of all schemes, Investors are advised to refer 'Returns' section on page 28-31.

Disclaimer: The above investment simulation is for illustrative purposes only and should not be construed as a promise on minimum returns and safeguard of capital. The AMC / Mutual Fund is not guaranteeing or promising or forecasting any returns. SIP does not assure a profit or guarantee protection against a loss in a declining market.

- It is assumed that the mutual fund units are held as capital assets by the investors.
- Plus applicable surcharge [refer note 9], if any, and Education Cess at the rate of 2% on income-tax and surcharge and Secondary and Higher Education cess at the rate of 1% on income-tax and surcharge.
- Securities Transaction Tax ('STT') is applicable only in respect of sale of units of Equity-Oriented Funds ('EOFs') on a recognised stock exchange and redemption of EOU by the mutual fund. Purchase/ sale/ redemption of units other than EOU are not subject to STT.
- Non-resident investors shall be entitled to be governed by provisions of the applicable Tax Treaty, which India has entered with the country of residence of the non-resident investor, if that is more beneficial than the provisions of the Income-tax Act, 1961 ('the Act'), subject to certain conditions. As per section 90(4) of the Act, a non-resident shall not be entitled to claim treaty benefits, unless the non-resident obtains a Tax Residency Certificate of being a resident of his home country. Furthermore, as per section 90(5) of the Act, non-resident is also required to provide such other documents and information, as prescribed by CBDT, as applicable.
- As per section 112 of the Act, long-term capital gains in case of non-residents would be taxable @ 10% on transfer of capital assets, being unlisted securities, computed without giving effect to first & second proviso to section 48 i.e. without taking benefit of foreign currency fluctuation and indexation benefit.
- Section 196D of the Act provides that no tax is required to be withheld for payment to a FII / FPI in respect of capital gains arising on transfer of units.
- As per provisions of Section 206AA of the Act, if there is default on the part of a non-resident investor (entitled to receive redemption proceeds from the Mutual Fund on which tax is deductible under Chapter XVII of the Act) to provide its Permanent Account Number, the tax shall be deducted at higher of the following rates: i) rates specified in relevant provisions of the Act; or ii) rate or rates in force; or iii) rate of 20%. However, the provisions of section 206AA of the Act shall not apply, if the requirements as stated in Rule 37BC of the Income-tax Rules, 1962, are met.
- "Infrastructure debt fund" means an infrastructure debt fund as defined in clause 1 of the regulation 49L of the Securities and Exchange Board of India (Mutual Fund) Regulations, 1996. As per clause 1 of regulation 49L, an 'infrastructure debt fund scheme' would mean, a scheme which invests primarily (minimum 90% of scheme assets) in debt securities or securitized debt instrument of infrastructure companies or infrastructure capital companies or infrastructure projects or special purpose vehicles, etc. or other permissible assets in accordance with these regulations or bank loans in respect of completed and revenue generating projects of infrastructure companies or projects or special purpose vehicles.

(Contd. on next page)

Tax Rates for Mutual Fund Investors¹ as per the Finance Act, 2017 – SNAPSHOT

9 Surcharge applicable for FY 2017-18:

Type of Investor	Surcharge rate as a % of Income-tax		
	If income is less than ₹ 50 lakhs	If income exceeds ₹ 50 lakhs but less than ₹ 1 crore	If income exceeds ₹ 1 crore
Individual, HUF, AOP (Resident & Foreign)	Nil	10%	15%

Type of Investor	Surcharge rate as a % of Income-tax		
	If income is less than ₹ 1 crore	If income exceeds ₹ 1 crore but less than ₹ 10 crores	If income exceeds ₹ 10 crores
Partnership firm (Domestic & foreign)	Nil	12%	12%
Domestic Company	Nil	7%	12%
Foreign Company	Nil	2%	5%

10 The FPI Regulations replaced the existing SEBI (Foreign Institutional Investor) Regulations, 1995 and the Qualified Foreign Investors framework, and are effective from 7 January 2014. As per Notification No. 9/2014 dated 22 January 2014, the Central Government has specified the Foreign Portfolio Investors registered under the Securities and Exchange Board of India (Foreign Portfolio Investors) Regulations, 2014, as 'Foreign Institutional Investor' for the purposes of clause (a) of the Explanation to section 115AD of the Act.

11 Rates are exclusive of surcharge at the rate of 12% and education cess at the rate of 3%.

12 Additional tax on income distributed to unit-holders would be levied on the amount of income to be distributed including such additional tax (i.e. grossing-up), as against levy on only the amount of income to be distributed, thereby resulting in a higher effective rate of tax on distributed income.

13 Capital gains arising on transfer or redemption of 'other than equity oriented units' should be regarded as long-term capital gains, if such units are held for a period of more than 36 months immediately preceding the date of such transfer.

14 Capital gains arising on the transfer or redemption of equity oriented units held for a period of more than 12 months, immediately preceding the date of transfer, should be regarded as 'long term capital gains'.

15 Tax shall be levied at 25% if the total turnover or gross receipts of the financial year 2015-16 does not exceed INR 50 crores.

INCOME TAX RATES FOR INDIVIDUAL / HUF / AOP / BOI for AY 2018-19

Total Income	Tax Rates (c)
Up to ₹ 250,000 (a)(b)(d)	NIL
₹ 250,001 to ₹ 500,000	5%
₹ 500,001 to ₹ 1,000,000	20%
₹ 1,000,001 and above	30%

(a) In the case of a resident individual of the age of 60 years or more but less than 80 years, the basic exemption limit is ₹ 300,000.

(b) In the case of a resident individual of the age of 80 years or more, the basic exemption limit is ₹ 5,00,000.

(c) Plus, surcharge on income-tax, as applicable and education cess is applicable at the rate of 2% on income-tax and secondary and higher education cess at the rate of 1% on income-tax.

(d) Rebate of upto ₹ 2,500 available for resident individuals whose total income does not exceed ₹ 3,50,000.

SECURITIES TRANSACTION TAX

Equity Oriented Fund

STT on sale of a unit of equity oriented mutual fund to the mutual fund is levied at 0.001% (STT payable by the seller)

No STT is chargeable on purchase of units of an equity oriented mutual fund entered into in recognised stock exchange.

STT on sale of a unit of an equity oriented mutual fund where the transaction is entered into in recognized stock exchange and the contract for sale is settled by the actual delivery is levied at 0.001% (STT payable by the seller).

Other than Equity Oriented Fund: Purchase/ sale/ redemption of units other than equity-oriented units shall not be subject to STT.

Mutual Fund would also pay securities transaction tax wherever applicable on the securities bought/sold.

As per Section 94(7): The loss due to sale of Units in the schemes (where income distributed on MF units is tax free) will not be available for set-off to the extent of the tax free income distributed; if units are: (A) Bought within three months prior to the record date fixed for income distribution; and (B) sold within nine months after the record date fixed for income distribution.

As per Section 94(8): The loss due to sale of original Units in the schemes, where bonus Units are issued, will not be available for setoff; if original units are :- (A) Bought within three months prior to the record date fixed for allotment of bonus units; and (B) sold within nine months after the record date fixed for allotment of bonus units. However, the amount of loss so ignored shall be deemed to be the cost of purchase or acquisition of such unsold bonus units held on the date of transfer of original units.

This information is being provided for basic guidance for investments in mutual funds and is based on provisions of the Income-tax Act, 1961, as amended by the Finance Act, 2017. The tax implications may vary for each assessee based on the details of his income. All rates and figures appearing are for illustrative purposes only. Tax benefits are subject to change in tax laws. Contents of this note have been drawn for informative purpose only and the same should not be used or considered as an investment/tax advice. The AMC/ Trustee/ Sponsor accept no liability whatsoever for any direct or consequential loss arising from any information provided in this note.

How to Read Factsheet

- **FUND MANAGER** - An employee of the asset management company such as a mutual fund or life insurer, who manages investments of the scheme. He is usually part of a larger team of fund managers and research analysts.
- **APPLICATION AMOUNT FOR FRESH SUBSCRIPTION** - This is the minimum investment amount for a new investor in a mutual fund scheme.
- **MINIMUM ADDITIONAL AMOUNT** - This is the minimum investment amount for an existing investor in a mutual fund scheme.
- **YIELD TO MATURITY** - The Yield to Maturity or the YTM is the rate of return anticipated on a bond if held until maturity. YTM is expressed as an annual rate. The YTM factors in the bond's current market price, par value, coupon interest rate and time to maturity.
- **SIP** - SIP or systematic investment plan works on the principle of making periodic investments of a fixed sum. It works similar to a recurring bank deposit. For instance, an investor may opt for an SIP that invests ₹ 500 every 15th of the month in an equity fund for a period of three years.
- **NAV** - The NAV or the net asset value is the total asset value per unit of the mutual fund after deducting all related and permissible expenses. The NAV is calculated at the end of every business day. It is the value at which the investor enters or exits the mutual fund.
- **BENCHMARK** - A group of securities, usually a market index, whose performance is used as a standard or benchmark to measure investment performance of mutual funds, among other investments. Some typical benchmarks include the Nifty, Sensex, BSE200, BSE500, 10-Year G-sec.
- **ENTRY LOAD** - A mutual fund may have a sales charge or load at the time of entry and/or exit to compensate the distributor/agent. Entry load is charged at the time an investor purchases the units of a mutual fund. The entry load is added to the prevailing NAV at the time of investment. For instance, if the NAV is ₹ 100 and the entry load is 1%, the investor will enter the fund at ₹ 101.
Note: SEBI, vide circular dated June 30, 2009 has abolished entry load and mandated that the upfront commission to distributors will be paid by the investor directly to the distributor, based on his assessment of various factors including the service rendered by the distributor.
- **EXIT LOAD** - Exit load is charged at the time an investor redeems the units of a mutual fund. The exit load is deducted from the prevailing NAV at the time of redemption. For instance, if the NAV is ₹ 100 and the exit load is 1%, the redemption price would be ₹ 99 per unit.
- **MODIFIED DURATION** - Modified duration is the price sensitivity and the percentage change in price for a unit change in yield.
- **STANDARD DEVIATION** - Standard deviation is a statistical measure of the range of an investment's performance. When a mutual fund has a high standard deviation, it means its range of performance is wide, implying greater volatility.
- **SHARPE RATIO** - The Sharpe Ratio, named after its founder, the Nobel Laureate William Sharpe, is a measure of risk-adjusted returns. It is calculated using standard deviation and excess return to determine reward per unit of risk.
- **BETA** - Beta is a measure of an investment's volatility vis-a-vis the market. Beta of less than 1 means that the security will be less volatile than the market. A beta of greater than 1 implies that the security's price will be more volatile than the market.
- **AUM** - AUM or assets under management refers to the recent / updated cumulative market value of investments managed by a mutual fund or any investment firm.
- **HOLDINGS** - The holdings or the portfolio is a mutual fund's latest or updated reported statement of investments/securities. These are usually displayed in terms of percentage to net assets or the rupee value or both. The objective is to give investors an idea of where their money is being invested by the fund manager.
- **NATURE OF SCHEME** - The investment objective and underlying investments determine the nature of the mutual fund scheme. For instance, a mutual fund that aims at generating capital appreciation by investing in stock markets is an equity fund or growth fund. Likewise, a mutual fund that aims at capital preservation by investing in debt markets is a debt fund or income fund. Each of these categories may have sub-categories.
- **RATING PROFILE** - Mutual funds invest in securities after evaluating their creditworthiness as disclosed by the ratings. A depiction of the mutual fund in various investments based on their ratings becomes the rating profile of the fund. Typically, this is a feature of debt funds.

MAAUM - Monthly Average Asset Under Management

++ ICRA has assigned credit risk rating of [ICRA]A1+mfs to Principal Low Duration Fund. The rating is the highest-credit-quality short-term rating assigned by ICRA to debt funds. Rating methodology used by ICRA is based on evaluating the inherent credit quality of the mutual funds portfolio. As a measure of the credit quality of a debt fund's assets, ICRA uses the concept of "credit scores", based on ICRA's assessment of credit risk associated with each exposure of the portfolio taking into account its maturity. To quantify the credit risk scores, ICRA uses its database of historical default rates for various rating categories for various maturity buckets. The credit risk ratings incorporate ICRA's assessment of a debt fund's published investment objectives and policies, its management characteristics, and the creditworthiness of its investment portfolio. ICRA reviews relevant fund information on an ongoing basis to support its published rating opinions. If the portfolio credit score meets the benchmark of the assigned rating during the review, the rating is retained. In an event that the benchmark credit score is breached, ICRA gives a month's time to the debt fund manager to bring the portfolio credit score within the benchmark credit score. If the debt fund manager is able to reduce the portfolio credit score within the benchmark credit score, the rating is retained. If the portfolio still continues to breach the benchmark credit score, the rating is revised to reflect the change in credit quality. The ratings should, however, not be construed as an indication of the prospective performance of the Mutual fund scheme or of volatility in its returns. ICRA ratings should not be treated as recommendation to buy, sell or hold the rated debt instruments. ICRA ratings are subject to a process of surveillance which may lead to a revision in ratings. **Source:** ICRA Ltd.

** CARE's fund credit quality rating is not a recommendation to purchase, sell, or hold a security / fund. It neither comments on the current market price, suitability for a particular investor nor on the prospective performance of the fund with respect to appreciation, volatility of net asset value (NAV), or yield of the fund. The ratings do not address the fund's ability to meet the payment obligations to the investors. The ratings are based on current information furnished to CARE by the issuer or obtained by CARE from sources it considers reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. CARE does not perform an audit in connection with any rating and may, on occasion, rely on unaudited information. The ratings may be changed, suspended, or withdrawn as a result of changes in, or unavailability of, such information, or based on other circumstances. Funds rated by CARE have paid a rating fee.

DISCLAIMER:

Mutual Fund investments are subject to market risks, read all scheme related documents carefully.
