Make your idle money work harder!

November, 2020

To generate regular income & capital appreciation through investments in debt securities and money market instruments.

## Why should you invest?

- This Fund is an Ultra Short Term Fund, with a Macaulay Duration in the range of 3 month – 6 month.
- The Fund aims to take advantage of the steepness of the curve.
- Steepness of the curve is the increase in yields from 2 month vs 6 month vs 12 months' papers.
- The mark-to-market component of the fund is managed within defined maturity profile of the scheme. Thus the investors know in advance the risk profile of the Fund and can suitably invest for appropriate investment horizon.

## Outlook

The fund continue to run with very high credit quality exposures in the form of treps, tbills and NCDs with long term rating of AAA. We will continue to look for opportunities in the 3 month to 1 yr segment for this fund carefully weighing the risk reward benefit.

The fund invests in high credit quality papers.

## Rating Profile (as on October 31, 2020)
